RAB AND LOWE ALPINE IN SPRING SUMMER 21

THE NEXT LEVEL OF PARTNERSHIP

Created by passionate mountaineers in 1981 and 1967 respectively, Rab and Lowe Alpine have always been driven by the spirit of their founders. Both Rab Carrington and the Lowe brothers strived to produce the best and most innovative equipment in the world, to keep you protected and comfortable wherever your spirit of adventure takes you.

From the start we have shared the same philosophy and the same values, inspired by the mountains and the people who make us feel most alive. Our dedication to excellent product development, technical knowledge, quality standards and our passion for the outdoors have built the foundation for a strong relationship.

From now on, Rab and Lowe Alpine will be more united than ever before. Lowe Alpine's history of pioneering and revolutionising pack design will complement Rab's expertise in crafting rugged, high performance mountain clothing and equipment.

By uniting our teams, we will be able to provide our community with a better brand experience, creating more innovative and complementary product solutions. Together, we are The Mountain People.

WE ARE EXPLORERS

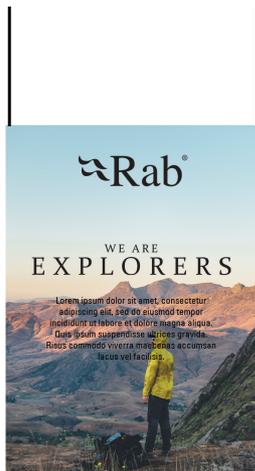

From highly skilled climbers and mountaineers taking on the highest peaks and hardest lines, to hikers looking to discover their local area, we all are united by one desire: the desire to explore.

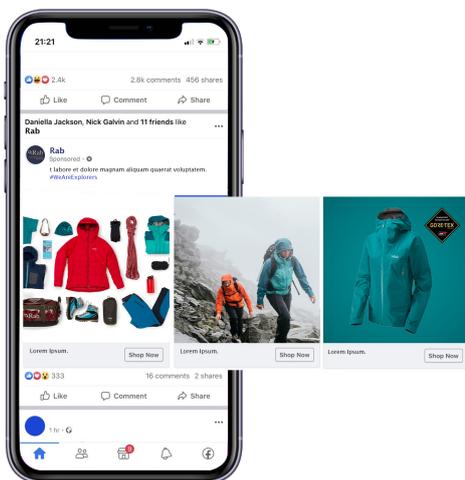

It is the beauty of the outdoors and the curiosity for the unknown that inspire us to set off, to leave our comfort zone behind and to create memories that will last a lifetime. No matter what and where you are following your passion, with our SS21 range we are here to enable your desire to set off and explore.

OUR SUSTAINABILITY JOURNEY

2020 UPDATE

PRODUCT

All virgin down certified to the Responsible Down Standard

100% recycled P.U.R.E. down launched for AW20

100% recycled polyester and nylon outers, linings and insulation use increased across our range

Iconic products made from 100% recycled fabrics

100% of fabric purchased for Lowe Alpine products is fluorocarbon free

Fluorocarbon free finishes continue to be rolled out for Rab non-technical fabrics

PARTNERS

- Fair Wear Foundation Member
- amfori BSCI audits covering >90% of production volume
- amfori Code of Conduct adhered to on all production sites
- All tier one suppliers commit to EQUIP Supplier Standards
- EOG Sustainability Charter commitment
- The Microfibre Consortium board member

Member of amfori, the leading global business association for open and sustainable trade. For more information visit www.amfori.org

THE MOUNTAIN
PEOPLE

PLANET

2019/20

Founding member of EOG Single Use Plastics Projects

Net Zero carbon reduction project launched

Comprehensive waste recycling scheme in all offices and warehouses

All poly bags now required to have >50% recycled content

100% renewable energy in UK warehouse and HQ

All poly bags removed from web orders where possible

All UK fleet cars being replaced with hybrid and low emission vehicles

All consumer information tags use sustainably sourced/recyclable board and printed using soy ink

Electric vehicle charging points installed at UK offices

PEOPLE

- EOCA funding and conservation support
- Outward Bound Trust funding partnership
- Outdoor Gear for Good partnership and donations
- Peak Mountaineering partnership and volunteering
- Dukes Barn partnership and volunteering
- Every employee offered two volunteering days per year

DOWNPOUR

Versatile, recycled and waterproof

The Downpour Range has been one of Rab's most versatile categories. From challenging treks in the hills to outdoor escapes on rainy days, these styles keep you dry and comfortable.

For spring/summer 2021, Rab has completely updated this category. Recycled fabrics and a PFC-free DWR make it more sustainable and the whole range is even more comfortable and lightweight, making these styles ideal for experienced hikers and customers looking to take their first footsteps into the outdoors alike.

THE HARDEST SOFTSHELL

KINETIC 2.0 AND KINETIC ALPINE

Designed to transform the way you dress for the outdoors, Proflex™ is a true revolution in waterproof technology. Because of its unique construction, Proflex™ allows us to make genuine softshell jackets with the waterproof protection of a traditional hardshell jacket, combining excellent comfort and great performance.

For SS21, we have completely updated our Kinetic range, making it even more durable and using recycled materials. These styles are the ideal choice for all mountaineers, climbers and hikers alike.

PROFLEX

RELIABLE WARMTH FOR VARIABLE CONDITIONS

THE CIRRUS FLEX 2.0 RANGE

Ideally suited to any mountain activity where warmth and protection against moisture are crucial, the new Cirrus Flex 2.0 collection is a range of durable, warm and incredibly breathable mid or outer layer garments.

A first in the outdoor industry, we have teamed up with PrimaLoft® to introduce their Silver Insulation Luxe™ that mimics the look, feel and air trapping qualities of down without its susceptibility to moisture. PrimaLoft® Silver Insulation Luxe™ is made of 100% recycled synthetic fibres and delivers down-like warmth, packability and lightweight loft, even in wet conditions.

The recycled 20D Pertex Quantum outer provides robust protection yet keeping the weight to a minimum. This gives Cirrus 2.0 its unrivalled versatility, whatever weather conditions you are facing.

BIVIS

Rab and Pertex® are pleased to announce the launch of a new technology, 'Shield Air', featuring in our bivis and tents. Our longstanding relationship with Pertex® allows us to collaborate as launch partners, bringing you equipment that is more breathable and comfortable in one lightweight package.

D O W N P O U R P L U S 2.0

CLASSIC HARD-SHELL WATERPROOFS FOR THE TECHNICALLY SAVVY MOUNTAIN HIKER WITH A STREAMLINED FEATURE SET.

Updated for summer 2021 with a recycled nylon face Pertex Shield 2.5L and a fluorocarbon free DWR. The features are now subtly called out to show the technicity of the product when viewed in store and the styling and tailoring have been subtly progressed to maintain the appeal of this latest model.

WEIGHT

375g / 13.2oz (jacket)
245g / 12.1oz (pants)

WATERPROOF

HH 20,000mm

BREATHABLE

MVTR 20,000g /m2/24hrs
Fluorocarbon-free DWR

COMFORTABLE, TAILORED FIT

that can be thrown over bulky layers whilst articulation at the arms ensures no restrictions to movement.

THE HELMET-COMPATIBLE HOOD with external front and rear adjustment can be altered on the go or can be rolled down and secured when not required.

WATER RESISTANT RAISED CHEST POCKETS easily accessible when wearing a pack or a harness, large enough to swallow maps, hats and gloves.

VENTILATED PIT ZIPS help maintain comfort in changeable conditions.

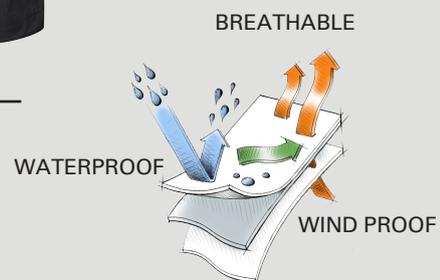

ARTICULATION AT THE KNEES, Helps these pants move with the body.

FULL LENGTH YKK AQUAGUARD ZIPPED LEG OPENINGS allow these pants to be quickly thrown on when the weather turns without removing boots and an internal top popper allows venting quickly when conditions are changeable.

PERTEX SHIELD 2.5 LAYER

Updated with a recycled nylon face fabric, the 2.5 layer offers a lightweight and durable fabric. Softer and more malleable than their 3 layer counterparts making them lighter to wear and more packable when not being used. Ideal for summer adventures in the mountains.

D O W N P O U R E C O

RECYCLED, LIGHTWEIGHT AND PACKABLE, THESE GARMENTS ARE IDEAL FOR HIKING AND HILL WALKING.

New for summer 2021 this is our first garment to feature Pertex Shield 2.5 layer with a fully post-consumer recycled polyester face and membrane together with a fluorocarbon free DWR. Beautifully soft with an incredibly comfortable handle, this is ideal for those customers looking to take their first exciting footsteps into the hills or experienced hikers alike.

WEIGHT
320g / 11.2oz (jacket)
225g / 7.9oz (pants)

WATERPROOF
HH 20,000mm

BREATHABLE
MVTR 20,000g /m2/24hrs
Fluorocarbon-free DWR

LIGHTWEIGHT AND COMFORTABLE can be thrown on quickly when the weather turns or easily stowed in a pack when not required.

FRONT AND REAR HOOD ADJUSTMENT can be altered on the go to achieve the perfect fit.

YKK VENTILATING PIT ZIPS maintain comfort in changeable conditions.

YKK ZIPPER HAND-WARMER POCKETS are large enough to accommodate a map and the jacket can be stuffed into the left pocket when not being used.

FULL ELASTICATED DRAW-CORD WAIST is extremely comfortable and minimises bulk.

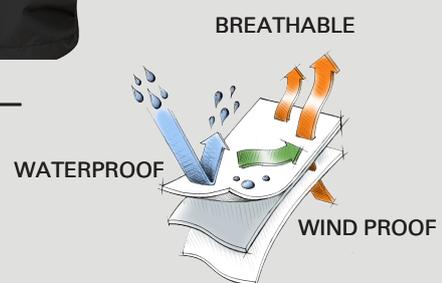

KNEE LENGTH LEG ZIPS allow the pants to be donned whilst still wearing walking boots.

NEW

PERTEX[®] SHIELD

PERTEX SHIELD ECO 2.5 LAYER

Our first 100% recycled waterproof fabric. Both the membrane and face fabric are manufactured from post-consumer recycled polyester and offer a beautifully soft feel for comfort and style.

KINETIC ALPINE 2.0

THE STRETCH AND COMFORT OF A SOFTSHELL WITH THE PROTECTION OF A HARDSHELL FOR FAST MOVING SUMMER ALPINE ASCENTS.

To move efficiently through challenging alpine environments, in weather conditions that can change rapidly, you need waterproof clothing that works with your body providing both comfort and freedom of movement. The Kinetic Alpine utilises Proflex™ membrane technology to allow the user to feel comfortable in the wide and varied conditions associated with summer alpinism. For summer 2021 we have improved the durability, dialled in the fit and refined the feature set to create these summer alpine focused pieces.

WEIGHT
423g / 15oz (jacket)
305g / 11oz (pants)

WATERPROOF
● HH 20,000mm
● HH 10,000mm
● HH 20,000mm

BREATHABLE
● MVTR 25,000g/m2/24hrs
● MVTR 35,000g/m2/24hrs
● MVTR 20,000g/m2/24hrs

Closer fit than a traditional shell jacket the stretch and cut of the Kinetic Alpine moves with the body and does not restrict movement giving confidence to wear it all day.

A CLOSE, SECURE HELMET COMPATIBLE HOOD that moves with the head with no restriction of visibility thanks to the front and rear adjustment together with a flexible polymer peak.

LARGE RAISED CHEST POCKETS easily accessible when wearing a pack or a harness, that swallow maps, hats, gloves and are protected by water resistant Aquaguard zippers.

QUICK ACCESS TROUSERS OR HARNESS thanks to a two-way Aquaguard front zip.

PULL ON AND LEAVE ON a press stud closure, zipper fly and hand pockets provide the essential functionality you'd expect from a pant you can wear all day.

STRETCH FABRIC AND A SLIM TAILORED FIT with knee articulation, offers the freedom of movement and an aesthetic not usually associated with a waterproof pant.

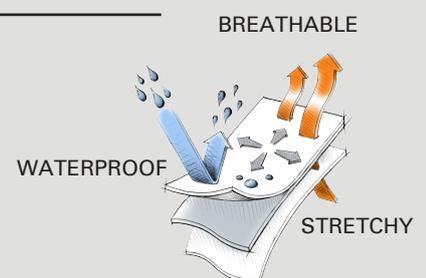

PROFLEX

A Rab developed highly breathable, stretch, waterproof membrane, laminated to an extremely fast wicking backing fabric. Proflex fabrics offer the stretch comfort of a softshell together with the waterproof protection of a hardshell.

● 149gsm Stretch Nylon Woven Proflex adds durability to areas of high wear.

● Recycled 120gsm Stretch Knit Proflex offers comfort and maintains freedom of movement.

● 100gsm Stretch Nylon Woven Proflex maintains durability and reduces weight.

KINETIC 2.0

THE STRETCH AND COMFORT OF A SOFTSHELL WITH THE PROTECTION OF A HARDSHELL FOR MOUNTAIN PUT-ON-LEAVE-ON PERFORMANCE.

The Kinetic 2.0 jacket twists the traditional layering system on its head. No longer do our customers have to decide between all out weather protection or stretch comfort, they can have both. Soft and comfortable enough to be worn over just a first layer.

WEIGHT
 336g / 12oz (jacket)
 271g / 9.5oz (pants)

WATERPROOF

- HH 20,000mm
- HH 10,000mm
- HH 20,000mm

BREATHABLE

- MVTR 25,000g/m2/24hrs
- MVTR 35,000g/m2/24hrs
- MVTR 20,000g/m2/24hrs

PUT ON, LEAVE ON

The Kinetic jacket is soft, quiet and moves with the body providing un-restricted movement and all day comfort meaning less stops to change layers.

SOFT, CLOSE FITTING HOOD feels like a fleece mid-layer with all the protection of a hardshell. The face, interface and rear volume adjustment ensures the hood moves with the head to maintain great visibility whilst the flexible peak fend off the rain.

PULL ON AND LEAVE ON with silicon gripper elasticated waist, zipper fly (men's only) and hand pockets provide the essential functionality you'd expect from a pant you can wear all day.

PERFECTLY PLACED CHEST POCKETS offer protection to cold hands, swallow maps, hats, gloves and are protected by water resistant Aquaguard zippers.

STRETCH FABRIC AND A SLIM TAILORED FIT offers the freedom of movement and an aesthetic not usually associated with a waterproof pant.

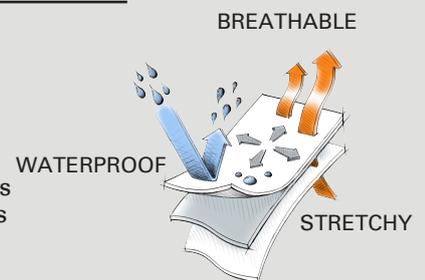

PROFLEX

A Rab developed highly breathable, stretch, waterproof membrane, laminated to an extremely fast wicking backing fabric. Proflex fabrics offer the stretch comfort of a softshell together with the waterproof protection of a hardshell.

● 120gsm Recycled Stretch Knit Proflex offers comfort and maintains freedom of movement.

● 149gsm Stretch Nylon Woven Proflex adds durability to areas of high wear.

● 100gsm Stretch Nylon Woven Proflex maintains durability and minimises weight.

CIRRUS FLEX 2.0

NOW MADE FROM RECYCLED MATERIALS THESE INCREDIBLY VERSATILE, HYBRID SUMMER INSULATION PIECES ARE IDEAL FOR THE VARIABLE TEMPERATURES EXPERIENCED IN THE MOUNTAINS.

Re-engineered for Summer 2021 with the exclusive post-consumer recycled 'down like' insulation, PrimaLoft Silver Luxe, the Cirrus Flex continues to offer unrivalled versatility. The outer fabric has been updated to a recycled Pertex Quantum, along with recycled Atmos lining. The fit and the styling have been reviewed and progressed making these serious mountain garments.

 <p>WEIGHT 422g / 14.8oz (hoody) 385.5g / 13.5oz (jacket) 258.5g / 5.5oz (vest)</p>	 <p>RECYCLED INSULATION PrimaLoft Silver Luxe 100% post-consumer recycled polyester</p>	 <p>RECYCLED FABRICS 20D recycled Atmos polyamide ripstop fluorocarbon-free DWR 20D recycled Pertex Quantum polyamide ripstop</p>
--	---	---

CLOSE FITTING HYBRID HOOD, features blown insulation over the crown for warmth, stratus on the upper side, and superflux stretch fleece around the neck for increased mobility.

MICRO BAFFLE CONSTRUCTION, maintains an even distribution of insulation to prevent cold spots.

STRETCH SIDE PANELS, offer freedom of movement and increase breathability to maintain comfort.

INTERNAL STASH POCKETS, make it quick and easy to stow gloves, hats etc.

ZIPPER HAND WARMING POCKETS, the jacket can be stuffed into the left pocket when not being used with a harness attachment loop.

SEMI-ELASTICATED CUFFS / ARMHOLES, using stratus insulation to trap air to maintain warmth.

NEW

PrimaLoft® Silver Insulation Luxe™

PrimaLoft® Silver Insulation Luxe™ provides the look, feel, and performance of down, using 100% recycled synthetic fibers. Water-resistant PrimaLoft® fibers deliver down-like warmth, packability and lightweight loft, even in wet conditions.

ALPINE BIVI

LIGHTER, MORE BREATHABLE AND MORE COMFORTABLE, SLEEP ALMOST ANYWHERE, WHATEVER THE WEATHER.

Can't find a pitch for a tent or don't want the hassle involved with pitching one? That's where the Alpine Bivi comes into its own. When free time is precious, and adventures in the mountains need to be grabbed when they can, the Alpine Bivi comes into its own. Perfect for bike packers and micro adventurers, as well as traditional alpinists. Summer 2021 sees significant improvements in comfort and weight as well as improved in-store display.

The air permeability of this new fabric not only allows occupants to breathe inside a fully sealed bivi, but also offers increased comfort over previous fabrics. The exceptional air permeability allows for increased moisture transportation improving comfort and avoids excessive condensation build-up.

L A T O K M O U N T A I N

2-3 PERSON SINGLE SKIN TENT FOR EXTENDED USE IN HIGH MOUNTAIN AND POLAR ENVIRONMENTS WHERE SIMPLICITY, WEIGHT, DURABILITY AND PROTECTION ARE OF PRIME CONCERN.

We have started to see a trend for explorers seeking less serious but equally fun adventures in more accessible outdoor environments finding favour with single skin tents as they share the same need for simplicity. For this coming season we have added several features to make the Latok Mountain more versatile, comfortable and simpler to use wherever the destination. We have also redesigned the stuffsack and product branding, for an improved, clearer and consistent in-store display.
